

In regards to the replacement of Air 1 with a LPFM, I can assure you that I am completely against any such action. Throughout my life I have listened to Air 1 and it has helped me greatly to choose a course of ethical and moral beliefs that benefit myself as well as my community. Instead of turning on the radio and hearing someone rapping out how they are going to sleep with, cuss out, or kill someone, or bloodcurdling screams in hard, dirty rock bands, I am able to turn on the radio and listen to encouraging music. Music that supports and upholds the values of life, friendship, and trust. I believe that if this radio station is replaced, removed, or terminated in any way that my community, as well as communities across the nation, will suffer negatively. Air 1 provides the uplifting support I need to start my day, and provides the hope that I need when I feel tired or despairing of life. Air 1 is a way to provide the community with cool and encouraging music because some cannot afford to buy the music they want to listen to. Instead of buying numerous CDs or tapes, it is possible to simply turn on the radio and hear the music one loves best. I love to listen to Air 1 as do many of my friends, and it will be, I believe, a great mistake if Air 1 is replaced with LPFM. Please do not allow this to happen! Air 1 is a part of my community and my life- don't destroy what we as a community, and I as a person love in my life.
